Our Business

Our Company

We are the largest and most trusted direct-to-consumer brand in the \$11 billion United States pool and spa care industry, serving residential, professional, and commercial consumers. Founded in 1963, we are the only direct-to-consumer pool and spa care brand with national scale, operating an integrated marketing and distribution ecosystem powered by a physical network of 952 branded locations and a robust digital platform. We command a market-leading share of nearly 15% of residential aftermarket product spend as of 2020, which represents an increase of approximately 600 basis points since 2010, our physical network is larger than the sum of our twenty largest competitors, and our digital sales are estimated to be greater than five times as large as that of our largest digital competitor. We offer an extensive assortment of professional-grade products, the majority of which are exclusive to Leslie's, as well as certified installation and repair services, all of which are essential to the ongoing maintenance of pools and spas. Our dedicated team of associates, pool and spa care experts, and experienced service technicians are passionate about empowering our consumers with the knowledge, products, and solutions necessary to confidently maintain and enjoy their pools and spas. Over the last five fiscal years, we have spent more than \$70 million in foundational investments across new technologies and capabilities focused on transforming our consumer experience and advancing our industry leadership. The unprecedented scale of our integrated marketing and distribution ecosystem, which is powered by our direct-to-consumer network, uniquely enables us to efficiently reach and service every pool and spa in the continental United States—capabilities no competitor can match.

commercial pools and spas. Our assortment includes chemicals, equipment and parts, cleaning and maintenance equipment, and safety, recreational, and fitness-related products. We also offer important, essential services, such as equipment installation and repair for residential and commercial consumers. Consumers receive the benefit of extended vendor warranties when purchasing product through our locations or when our certified in-field technicians install or repair equipment on-site. We also offer complimentary, commercial-grade, in-store water testing and analysis via our proprietary AccuBlue® system, which increases consumer engagement, conversion, basket size, and loyalty, resulting in higher lifetime value. Our water treatment expertise is powered by data and intelligence accumulated from the millions of water tests we have performed over our history, positioning us as the most trusted water treatment solutions provider in the industry. Due to the non-discretionary nature of our products and services, our business has historically delivered strong, uninterrupted growth and profitability in all market environments, including the Great Recession and the COVID-19 pandemic. Our growth has recently accelerated with sales growth of 19.8% for fiscal year 2020 and sales growth of 28.1% for the first 39 weeks of fiscal year 2021 when compared to the prior year periods.

57 Years of Leadership and Disruptive Innovation in Pool & Spa Care

Since our founding in 1963, we have been the leading innovator in our category and have provided our consumers with the most advanced pool and spa care available. As we have scaled, we have leveraged our competitive advantages to strategically reinvest in our business and intellectual property to develop new, value-added capabilities that allow us to meet the needs of any pool and spa owner, whether they care for their pool or spa themselves or rely on a professional, whatever the nature of their need may be, and however they wish to engage with us.

Legacy of Innovation

Over our 57-year history, we have introduced innovative ways to serve pool and spa owners and the professionals who care for their pools and spas.

Owned and Exclusive Brands. Since our inception in 1963, we have offered a portfolio of owned and exclusive brands. We continue to expand our selection of exclusive offerings through innovation, most recently with the launch of the Jacuzzi® and our RightFit® brands in 2016. Our exclusive brands and products account for approximately 55% of total sales and 80% of chemical sales. These proprietary brands and custom-formulated products are only available through our integrated platform and offer professional-grade quality to our consumers, while allowing us to achieve higher gross margins relative to sales of third-party products.

Complimentary and Proprietary Water Testing. We pioneered complimentary in-store water testing, and over the course of our history have conducted over 40 million tests, which has helped us establish relationships, cultivate loyalty, and drive attractive lifetime value with our consumers as they rely on us for their water treatment needs. We have found that consumers who regularly test their water with us spend more with us per year than other consumers, and we believe that these consumers experience significantly fewer days where their pools are out of commission.

Complimentary In-Store Repair. We provide complimentary in-store equipment repair, which we offer to all consumers with the purchase of Leslie's replacement parts. Over the last fifteen years, we have conducted more than one million in-store repairs.

In-Field Services. We employ the industry's largest in-field service network, consisting of more than 200 pool and spa care service professionals who have the expertise to provide essential, on-site equipment installation and repair services for residential and commercial consumers throughout the continental United States.

Loyalty Program. In 2014, we launched the industry's first loyalty program, which helps track loyalty members' water treatment history and prescriptions and rewards them for shopping with us. As of October 3, 2020, our loyalty program has more than 3.3 million members, up more than 50% from 2.1 million active members as of September 2018. Our loyalty members spend twice as much with us on average compared to our other consumers. In May 2021, we launched our updated loyalty program, Pool Perks, in order to offer more value-added features to further drive member enrollment and engagement.

Professional Market. In 2015, we made the strategic decision to resource this channel and accelerate sales growth to professional consumers. Through acquisitions, technology investments, and increased utilization of our integrated network we drove a sales CAGR of over 20% through fiscal year 2020. Our differentiated go-to-market model includes 952 convenient locations, including dedicated Leslie's PRO locations in certain markets, extended operating hours, expansive product offering through our online platforms, multiple fulfillment capabilities, and the ability to provide pool professionals with referrals to residential consumers. Despite our strong growth, our penetration in the professional market remains modest with an estimated market share of less than 10%.

Leslie's Evolution in the Digital World

Over the last five years, we have spent more than \$70 million investing in new service offerings and digital capabilities that have modernized how consumers take care of their pools and spas.

Digital Network. We have built the largest digital presence in the industry. Our complementary platform of branded proprietary e-commerce websites and marketplace storefronts allows us to seamlessly serve the needs of all digital consumers through curated pricing and targeted merchandising strategies. In addition to our owned e-commerce websites, approximately 40% of our digital sales take place through online marketplaces. In all, our digital network is strategically designed to maximize total profitability. Our digital sales have grown at a CAGR of more than 35% between fiscal year 2015 and fiscal year 2020, and represented 26% of our total sales in fiscal year 2020, up from 8% in fiscal year 2015.

Mobile App. In 2018, we introduced a custom-designed mobile app that allows consumers to create a personalized pool profile, sync in-store prescriptions, and monitor the performance of at-home water tests. As of July 2021, the mobile app had more than half a million downloads and an average

user rating of 4.6/5.0. We plan to continue enhancing this critical element of our network by introducing new features, including transaction capabilities.

Consumer-Centric Integrated Ecosystem. We architected a consumer-centric integrated ecosystem comprised of our physical network of 952 branded locations and a robust, data-driven digital platform. Over the last two years, we have invested in new capabilities, including global inventory visibility, buy online pick-up in store ("BOPIS"), buy online return in store ("BORIS"), and ship from store ("SFS"), all of which were introduced in 2021. With our integrated physical and digital network, we will have the unique advantage of being able to reach all consumers in the continental United States in less than 24 hours, whether they are homeowners, pool and spa professionals, or commercial pool operators, whenever, wherever, and however they prefer to shop.

AccuBlue® Water Testing & Prescription Service. In January 2020, we launched our AccuBlue® in-store water testing device and enhanced water testing experience. AccuBlue®, which features exclusive and proprietary software that incorporates our 57 years of accumulated water treatment expertise, automates and gamifies the water testing experience, driving enhanced accuracy, higher throughput, greater consumer engagement, and increased consumer adherence to prescription recommendations. Locations that have been equipped with AccuBlue® are growing sales at a faster rate than our other locations, supported by an increase in number of water tests performed, an improved conversion rate, and an increase in number of products prescribed per test which has resulted in greater units per transaction. In December 2020, we completed the rollout of AccuBlue® across our physical network.

Highly Experienced and Visionary Management Team. Over the last five years, we have built a diverse, multi-disciplinary management team to drive our consumer-first, digitally enabled growth. Since 2018, four of our seven senior leaders have joined our organization, bringing new expertise and capabilities that are highly complementary and synergistic with our core industry expertise that we have accumulated over decades.

Innovating the Future of Pool and Spa Care

As we look forward, we are committed to better serving our digital-first consumer by introducing an expanded portfolio of connected pool and spa products and services. We believe that we are uniquely positioned to leverage our market-leadership to continue to disrupt the pool and spa care category and further distance ourselves from our competition.

AccuBlue Home™ Subscription. We are actively developing new technologies that seek to fundamentally change the way all consumers, whether a novice or an expert, care for their pools and spas. Through a new AccuBlue Home™ subscription offering, we leverage our proprietary water diagnostics software to convert on-demand test results into actionable prescriptions and treatment plans tailored to the specific size and conditions of a consumer's pool or spa, which we can seamlessly and automatically fulfill through our integrated network. We launched the pilot of our AccuBlue Home program in June 2021.

Certified Pool Maintenance Offering. We are assembling a strategic network of qualified pool professionals to extend the Leslie's brand into on-site water maintenance, completing our suite of service offerings in the residential pool ecosystem.

Ongoing R&D. We continue to leverage our intellectual property and differentiated strategic position to be the innovator and disruptor in our industry. We plan to strategically reinvest in our

business and bring to market new products and services that will continue to improve our ability to serve our consumers and win in the marketplace. In addition to our internal efforts, as the most recognized and trusted authority in the industry with the most direct access and deepest relationships with pool and spa owners, we continue to receive unsolicited opportunities from third parties to introduce to the market and commercialize new products and services on an exclusive basis.

Our Competitive Strengths

We believe that the following competitive strengths have been key drivers of our success to date, and strategically position us for continued success.

Undisputed direct-to-consumer market leader in the aftermarket pool and spa care industry.

For 57 years, we have been dedicated to addressing our consumers' pool needs so they can spend less time maintaining and more time enjoying their pools. We are the only direct-to-consumer pool and spa care brand with a nationwide physical presence and an integrated digital platform, consisting of individually merchandised e-commerce websites, a mobile app with transaction capabilities, and online marketplace operations, is designed to address the needs of all pool and spa consumers. The remainder of the industry is highly fragmented across both offline and online providers. We command a market-leading share of nearly 15% of residential aftermarket product spend, which represents an increase of approximately 600 basis points since 2010, our physical network is larger than the sum of the next twenty largest competitors, and our digital sales are estimated to be greater than five times as large as that of our largest digital competitor. Additionally, we estimate our share of digital sales to be greater than 60%.

We believe that our history, scale, and consumer-centric approach have contributed to industry-leading consumer affinity metrics. As a result of our consumer-centric approach, we have a Voice of Customer (VoC) score of approximately 73% based on our regular surveys of our consumer file, which demonstrates our consumers' strong affinity for our brand.

Direct relationships with more than 11 million pool and spa owners and professionals, generating durable, annuity-like economics.

We are the largest national pool and spa care brand that has a direct relationship with pool and spa owners and the professionals who serve them. Across our integrated platform, we have a total file of approximately 11 million consumers. Through our team of highly trained pool and spa experts, we offer sophisticated product recommendations and other expert advice, which cultivates long-standing relationships with our consumers. The comprehensive nature of our product and service offering eliminates the need for consumers to leave the Leslie's ecosystem, driving exceptional retention with annuity-like economics.

In 2014, we launched our loyalty membership program to further deepen our consumer relationships. The program, which serves more than 3.3 million consumers, allows members to save, earn, and redeem via discounts, points, and rewards. We track consumer preferences, order frequency, and pool profiles in order to curate and enhance our recommendations and promotions, anticipate product demand, and track lifetime value to better incentivize our loyalty members. On average, a loyalty member spends twice as much with us per year than a non-loyalty member.

Consumer-centric connected ecosystem for all pool and spa owners and the professionals who serve them using proprietary, leading brands across all channels.

We have built the most extensive and geographically diverse pool and spa care network in the United States, consisting of three formats: Residential, Professional (PRO), and Commercial. Our locations are strategically located in densely populated areas mainly throughout the Sunbelt, including California, Arizona, Texas, and Florida. Across our physical network, we employ a team of over 4,000 associates, including pool and spa care experts and service technicians, who act as solution providers to all of our consumers, including both do-it-yourself ("DIY") and do-it-for-me ("DIFM") pool owners as well as pool professionals.

- **Residential Locations.** We serve our residential consumers through 906 residential locations that are strategically located in 38 states. Our residential locations have on average 900 in-store SKUs.
- **PRO Locations.** Our 29 PRO locations carry a broadened assortment of approximately 1,500 SKUs targeting the professional consumer. These locations also serve residential and commercial consumers.
- **Commercial Service Centers.** We serve our commercial consumers through 17 Commercial Service Centers. These are our largest format locations with an extensive assortment including over 350 bulk SKUs and special items and services.

As the world has become more digitally focused, and consumers increasingly demand "smart" home-enabled options, we have focused on architecting the industry-leading integrated digital platform of proprietary e-commerce websites designed to serve our residential, professional, and commercial consumers. Our proprietary e-commerce websites serve digital consumers through curated pricing and targeted merchandising strategies. In addition to our owned e-commerce websites, we offer our products through online marketplaces such as Amazon, eBay, and Walmart. As a result of our strategic investments in digital, we are uniquely positioned to serve our consumers with cross-channel capabilities and capture incremental online demand from new consumers while growing the total profitability of the network.

Comprehensive assortment of proprietary brands with recurring, essential, superior product formulations, and trusted, solution-based services for all consumers.

We offer a comprehensive product assortment, consisting of more than 30,000 products across chemicals, equipment and parts, cleaning and maintenance equipment, and safety, recreational, and fitness-related categories. Approximately 80% of our product sales are non-discretionary and recurring in nature. In fiscal year 2020, chemicals and equipment & parts accounted for approximately 45% and 30% of our total sales, respectively. These products are critical to the ongoing maintenance of pools and spas. In addition, approximately 55% of our total sales and 80% of our chemical sales are derived from proprietary brands and custom-formulated products, which allows us to create an entrenched consumer relationship, control our supply chain, and capture attractive margins. Consumers choose our exclusive, proprietary brands and custom-formulated products for their efficacy and value, a combination that we believe cannot be found elsewhere.

We pair our comprehensive product assortment with differentiated in-store and on-site service offerings. We pioneered the complimentary in-store water test and resulting pool or spa water prescription, which has driven consumer traffic and loyalty, and has created a "pharmacist-like" relationship with our consumers. Through innovation, we recently introduced significant upgrades to our water testing capabilities with the launch of our AccuBlue® platform. The AccuBlue® testing device

screens for nine distinct water quality criteria. Our in-store experts leverage our proprietary AccuBlue® water diagnostics software engine to offer our consumers a customized prescription and treatment plan using our comprehensive range of exclusive products, walking them through product use sequencing step-by-step. These detailed and sophisticated treatment algorithms are supported by our differentiated water treatment expertise built over decades. Historically, we have found that consumers who test their water with us regularly spend more with us per year than those who do not, underscoring the importance of this acquisition and retention vehicle. We also employ the industry's largest network of in-field technicians who perform on-site evaluations, installation, and repair services for residential and commercial consumers.

Attractive financial profile characterized by consistent, profitable growth, and strong cash flow conversion offering multiple levers to drive shareholder value.

We have delivered 57 consecutive years of sales growth, demonstrating our ability to deliver strong financial results through all economic cycles. Our growth has been broad based across residential pool, residential spa, professional pool, and commercial pool consumers and has been driven by strong retention and profitable acquisition of sticky, long-term consumer relationships. Due to our scale, vertical integration, and operational excellence, we maintain high profitability. Due to our low maintenance capital intensity, we generate strong cash flows. As a result of our attractive financial profile, we have significant flexibility with respect to capital allocation, giving us the ability to drive long-term shareholder value through various operating and financial strategies.

Highly experienced and visionary management team that combines deep industry expertise and advanced, direct-to-consumer capabilities.

Our strategic vision and culture are directed by our executive management team under the leadership of our Chief Executive Officer, Michael R. Egeck and our Executive Vice President and Chief Financial Officer, Steven M. Weddell. Our well-balanced executive management team is comprised of leaders with decades of experience in the pool and spa care industry as well as recently hired executives who bring new expertise and capabilities to Leslie's from outside industries. Our management team is uniquely capable of executing upon our strategic vision and successfully continuing to create long-term shareholder value.

Our Growth Strategies

Grow our consumer file.

We believe we have significant opportunity to acquire new residential consumers and reactivate lapsed residential consumers, which we plan to do by executing on the following strategies:

- **Acquire or reactivate consumers via optimized marketing strategy.** We believe we have a sizeable opportunity to grow by serving the millions of pool and spa owners in our market who do not actively shop with us today. We plan to accelerate our acquisition of these potential new or reactivated consumers and, at the same time, reduce consumer acquisition cost by shifting our marketing mix toward more efficient digital and social channels.
- **Capture outsized share of new pool and spa consumers.** We have observed considerable recent acceleration in new pool and hot tub installations, bringing new consumers to our market. We intend to bolster consumer file growth by deploying targeted marketing tactics to win outsized share of this new consumer cohort.

Increase share of wallet among existing consumers.

We currently serve a file of approximately 5.5 million active consumers, which represents approximately one-third of the estimated total addressable market of pool and spa owners. We define "active consumers" as consumers who transacted with us during the 18-month period ended October 3, 2020 and "lapsed residential consumers" as those who have shopped with us in the past, but have not transacted with us in the last 18 months. We believe we have a significant opportunity to increase spend from existing consumers and drive higher lifetime value. We plan to do this by executing on the following strategies:

- **Increase loyalty membership penetration and introduce program upgrades.** We plan to continue to market our loyalty program in-store and online to convert more of our consumers to loyalty members. In May 2021, we launched our updated loyalty program, Pool Perks, in order to offer more value added features to further drive member enrollment and engagement. We will explore opportunities to drive interest by selectively offering special incentives and rewards as well as introducing new value-added features. We believe these initiatives will drive higher transaction frequency and basket size, which will result in increased category spend and higher lifetime value with existing consumers.
- **Enhance retention marketing.** While we have historically been satisfied with our consumer retention metrics, we believe there is opportunity to drive even greater retention. We plan to do this by more actively leveraging our consumer database to personalize the consumer experience with targeted messaging and product recommendations.
- **Expand our product and service offering.** We plan to expand our offering by introducing new and innovative products and services in our existing categories and by expanding into adjacent categories. Specifically, we believe there is an opportunity with products targeted to spa owners, who have historically been underserved.

Grow additional share in the professional market.

We believe we have a significant opportunity to grow our sales with pool care professionals, who individually spend more than 25x as much as residential consumers on pool supplies and equipment.

Our research suggests that small and mid-size pool professionals value convenience and referrals, both of which we are uniquely positioned to offer given our 900+ locations and industry's largest consumer file. We plan to expand our physical network of PRO locations, which specifically cater to pool professionals, by opening new locations and selectively remodeling existing residential locations. We believe there is significant whitespace opportunity to operate more than 200 total PRO locations across the United States. We also plan to assemble an affiliated network of qualified pool professionals to extend the Leslie's name into water maintenance. To further benefit pool care professionals, we launched our Leslie's PRO e-commerce website in June 2021. This website provides all of the online tools needed for professionals to serve their respective communities and grow their pool care businesses. We believe that this initiative represents a natural adjacency and will resonate with existing residential consumers as well as help attract new residential consumers.

Utilize strategic M&A to consolidate share and further enhance capabilities.

The aftermarket pool and spa industry remains highly fragmented, which offers attractive opportunities to utilize strategic M&A to drive consolidation. We have historically used, and plan to continue to use, strategic acquisitions to obtain consumers and capabilities in both new and existing markets. We have completed three bolt-on acquisitions during fiscal 2021 to date and continue to look

for opportunities that will strategically benefit our business. We believe that we are the consolidator of choice in the industry, and we will continue to focus on acquiring high quality, market-leading businesses with teams, capabilities, and technologies that uniquely position us to create value by applying best practices across our entire physical and digital network to better serve new and existing consumer types.

Addressing underserved residential whitespace.

We have identified more than 700 underserved residential pool and spa care markets in the continental United States. With our omni-channel capabilities, successful track record of new location openings, and targeted digital marketing tactics, we believe we are well positioned to capitalize on this meaningful whitespace opportunity. We plan to assess each market independently and determine the most capital efficient way to serve these trade areas using a mix of digital assets and physical locations.

Continue to introduce disruptive innovation.

Leslie's has a legacy of disruptive innovation in the pool and spa care industry. We plan to continue that legacy by continuously developing and introducing capabilities that create value for our consumers. Present areas of focus include water testing, maintenance prescriptions, new product offerings, and our product distribution ecosystem.

As the Internet of Things wave continues, we believe consumers will seek the convenience of "smart" home functionality in more facets of their daily lives. We believe this presents an opportunity to introduce a full service, connected home solution that effectively automates pool maintenance, including actively monitoring our customer's water, diagnosing, developing, and prescribing a treatment plan, and delivering to our customer's home the assortment of products needed to maintain a clear, safe, beautiful pool.

Our Consumers

We strategically serve all consumers within the aftermarket pool and spa care industry including Residential Pool, Residential Spa, Professional Pool, and Commercial Pool consumers.

- **Residential Pool.** The residential pool market consists of 8.6 million pools representing a total aftermarket sales opportunity of \$6.9 billion. Within this market, DIY aftermarket spend represents roughly 70% of total spend while DIFM services represent approximately 30% of total spend. Many of our residential pool consumers visit our locations on a regular basis to conduct water testing, seek expert pool advice, and purchase products as well as utilize our integrated digital platforms.
- **Residential Spa.** The residential spa market consists of nearly 5.5 million spas or hot tubs representing a \$0.7 billion aftermarket sales opportunity for chemicals and equipment. Including the \$1.1 billion market for new spas, residential spa represents a total addressable market of approximately \$1.8 billion.
- **Professional Pool.** The professional pool market consists of nearly 45,000 professionals who spend an estimated \$23,000 on chemicals and equipment per year on average, representing a total sales opportunity of more than \$650 million. Our professional pool consumers specialize in pool maintenance and equipment repair for DIFM homeowners, businesses, and government entities. We provide pool professionals access to wholesale pricing across our integrated network.

- Disruptions from disasters and similar events could have a material adverse effect on our business.

Risks Related to Our Industry and the Broader Economy

- We face competition by manufacturers, retailers, distributors, and service providers in the residential, professional, and commercial pool and spa care market.
- The demand for our swimming pool and spa related products and services may be adversely affected by unfavorable economic conditions.

Technology and Privacy Related Risks

- Any limitation or restriction to sell on online platforms could harm our profitability.
- A significant disturbance or breach of our technological infrastructure could adversely affect our financial condition and results of operations.
- Improper activities by third parties and other events or developments may result in future intrusions into or compromise of our networks, payment card terminals or other payment systems.

Risks Related to Our Business Strategy

- We may acquire other companies or technologies, which could fail to result in a commercial product and otherwise disrupt our business.
- Our operating results will be harmed if we are unable to effectively manage and sustain our future growth or scale our operations.

Risks Related to the Manufacturing, Processing, and Supply of Our Products

- Our business includes the packaging and storage of chemicals and an accident related to these chemicals could subject us to liability and increased costs.
- Product supply disruptions may have an adverse effect on our profitability and operating results.
- The cost of raw materials could increase our cost of goods sold and cause our results of operations and financial condition to suffer.

Risks Related to Commercialization of Our Products

- The commercial success of our planned or future products is not guaranteed.
- We may implement a product recall or voluntary market withdrawal, which could significantly increase our costs, damage our reputation, and disrupt our business.

Risks Related to Government Regulation

- The nature of our business subjects us to compliance with employment, environmental, health, transportation, safety, and other governmental regulations.
- Product quality, warranty claims or safety concerns could impact our sales and expose us to litigation.

Risks Related to Intellectual Property Matters

- If we are unable to adequately protect our intellectual property rights, our competitive position could be harmed or we could be required to incur significant expenses to enforce or defend our rights.
- If we infringe on or misappropriate the proprietary rights of others, we may be liable for damages.

Risks Related to Our Indebtedness

- Our substantial indebtedness could materially adversely affect our financial condition and our ability to operate our business.
- Our ability to generate sufficient cash depends on numerous factors beyond our control, and we may be unable to generate sufficient cash flow to service our debt obligations.

- Incurrence of substantially more debt could further exacerbate the risks associated with our substantial leverage.

Risks Related to Ownership of Our Common Stock

- Our stock price may be volatile, resulting in substantial losses for investors.
- Future sales of shares by existing stockholders could cause our stock price to decline.
- Stockholders' ability to influence corporate matters may be limited because a small number of stockholders beneficially own a substantial amount of our common stock and continue to have substantial control over us.
- Transactions engaged in by our principal stockholders, our officers or directors involving our common stock may have an adverse effect on the price of our stock.
- We do not intend to pay dividends for the foreseeable future.
- Anti-takeover provisions in our charter and under Delaware law could limit certain stockholder actions.
- Certain provisions of our fifth amended and restated certificate of incorporation may have the effect of discouraging lawsuits against our directors and officers.
- We will continue to incur increased costs as a result of being a public company.
- If we are unable to effectively implement or maintain a system of internal control over financial reporting, we may not be able to accurately or timely report our financial results.
- We were previously a "controlled company" within the meaning of the corporate governance standards of Nasdaq, and, as a result, you may not have the same protections afforded to stockholders of other companies during the transition period afforded to us by the rules of Nasdaq.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should consider and read carefully all of the risks and uncertainties described below as well as other information included in this prospectus and in the information incorporated by reference herein, including our consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended October 3, 2020, our Quarterly Report on Form 10-Q for the quarter ended January 2, 2021, our Quarterly Report on Form 10-Q for the quarter ended April 3, 2021, and our Quarterly Report on Form 10-Q for the quarter ended July 3, 2021, which are incorporated by reference herein, before making an investment decision. The risks described below are not the only ones facing us. The occurrence of any of the following risks or additional risks and uncertainties not presently known to us or that we currently believe to be immaterial could materially and adversely affect our business, financial condition or results of operations. In such case, the trading price of our common stock could decline, and you may lose all or part of your original investment. This prospectus and the information incorporated by reference herein also contain forward-looking statements and estimates that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of specific factors, including the risks and uncertainties described below.

Additionally, the COVID-19 pandemic may amplify many of the risks discussed below to which we are subject and, given the unpredictable, unprecedented and fluid nature of the pandemic, it may materially and adversely affect us in ways that are not anticipated by or known to us or that we do not consider to present significant risk. Therefore, we are unable to estimate the extent to which the pandemic and its related impacts will adversely affect our business, financial condition and results of operations as well as our stock price following completion of this offering.

Risks Related to the Offering

An active trading market for our common stock may not be sustained.

Although our common stock is traded on Nasdaq under the symbol “LESL,” there is a very limited trading history and an active trading market for our common stock may not be sustained. Accordingly, no assurance can be given as to the following:

- the likelihood that an active trading market for our common stock will be sustained;
- the liquidity of any such market;
- the ability of our stockholders to sell their shares of common stock; or
- the price that our stockholders may obtain for their common stock.

If an active market for our common stock with meaningful trading volume is not maintained, the market price of our common stock may decline materially below the offering price and you may not be able to sell your shares. The public offering price for our shares in this offering will be determined by negotiations between the selling stockholders and representatives of the underwriters and may not be indicative of prices that will prevail in the open market following this offering. Consequently, you may not be able to sell our common stock at prices equal to or greater than the price you paid in this offering.

The market price and trading volume of our stock may be volatile or may decline regardless of our operating performance, resulting in substantial losses for investors, and could decline substantially following this offering.

The market price and trading volume of our common stock may fluctuate significantly in response to numerous factors, many of which are beyond our control, including:

- actual or anticipated fluctuations in our results of operations;

Table of Contents

- the financial projections we may provide to the public, any changes in these projections, or our failure to meet these projections;
- failure of securities analysts to initiate or maintain coverage of us, changes in financial estimates or ratings or negative reports by any securities analysts who follow us or our failure to meet these estimates or the expectations of investors;
- announcements by us or our competitors of significant technical innovations, acquisitions, strategic partnerships, joint ventures, results of operations, or capital commitments;
- changes in operating performance and stock market valuations of other retail companies generally, or those in our industry in particular;
- price and volume fluctuations in the overall stock market, including as a result of trends in the economy as a whole;
- changes in our board of directors or management;
- sales of large blocks of our common stock, including sales by our executive officers or directors;
- lawsuits threatened or filed against us;
- changes in laws or regulations applicable to our business;
- changes in our capital structure, such as future issuances of debt or equity securities;
- short sales, hedging, and other derivative transactions involving our capital stock;
- general economic conditions in the United States;
- other events or factors, including those resulting from war, incidents of terrorism, pandemics, or other public health emergencies or responses to these events; and
- the other factors described in the sections titled “Risk Factors” and “Cautionary Note Regarding Forward-Looking Statements” included in this prospectus and in the information incorporated by reference herein.

Future sales of shares by existing stockholders could cause our stock price to decline.

If our existing stockholders sell, or indicate an intention to sell, substantial amounts of our common stock in the public market after the contractual lock-up agreements described below expire and other restrictions on resale lapse, the trading price of our common stock could be adversely impacted. As of September 10, 2021, we had 189,777,769 shares of common stock outstanding. In connection with this offering, our directors, executive officers and the selling stockholders have entered into lock-up agreements with the underwriters prohibiting sales of our common stock, subject to certain exceptions, for a period of 60 days following the date of this prospectus. In addition, as discussed in “Certain Relationships and Related Party Transactions,” in our Annual Report on Form 10-K for the year ended October 3, 2020, pursuant to our registration rights and lock-up agreement, certain of our stockholders are subject to additional lock-up periods, including the following:

- each stockholder party to our registration rights and lock-up agreement will be prohibited from selling shares for 90 days following any public offering (or such shorter period as agreed to by the managing underwriters for the relevant offering) subject to such agreement, subject to limited waivers and exceptions; and
- any employee, member of management or director as of the time of closing of our initial public offering will be prohibited from selling shares for an additional 540 days, subject to limited waivers and exceptions, with such additional lock-up period expiring on October 18, 2022.

Table of Contents

The underwriters may permit our executive officers, directors, and the selling stockholders who are subject to the contractual lock-up in connection with this offering to sell shares prior to the expiration of the lock-up agreements. Upon expiration of each of these lock-up periods, all such shares will be eligible for resale in the public market, subject to applicable securities laws, including the Securities Act. The trading price of our common stock could be adversely impacted if any of these certain significant stockholders sell, or indicate an intention to sell, substantial amounts of our common stock in the public market.

Stockholders' ability to influence corporate matters may be limited because a small number of stockholders beneficially own a substantial amount of our common stock and continue to have substantial control over us.

As of September 10, 2021, our officers, directors, and principal stockholders (greater than 5% stockholders) collectively beneficially own approximately 39% of our issued and outstanding common stock (31% following completion of this offering or 30% if the underwriters exercise their option to purchase additional shares in full). As a result, these stockholders will be able to exert significant influence over all matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions, such as a merger or other sale of our Company or its assets, and may have interests that are different from our other stockholders' and may vote in a way with which other stockholders disagree and which may be adverse to the interests of our other stockholders. In addition, this concentration of ownership may have the effect of preventing, discouraging, or deferring a change of control, which could depress the market price of our common stock.

Transactions engaged in by our principal stockholders, our officers or directors involving our common stock may have an adverse effect on the price of our stock.

As described above, our officers, directors, and principal stockholders (greater than 5% stockholders) collectively control approximately 39% of our issued and outstanding common stock as of September 10, 2021 (31% following completion of this offering or 30% if the underwriters exercise their option to purchase additional shares in full). Sales of our shares by these stockholders, including in this offering, could have the effect of lowering our stock price. The perceived risk associated with the possible sale of a large number of shares by these stockholders, or the adoption of significant short positions by hedge funds or other significant investors, could cause some of our stockholders to sell their stock, thus causing the price of our stock to decline. In addition, actual or anticipated downward pressure on our stock price due to actual or anticipated sales of stock by our directors or officers could cause other institutions or individuals to engage in short sales of our common stock, which may further cause the price of our stock to decline.

From time to time, our directors and executive officers may sell shares of our common stock on the open market. These sales will be publicly disclosed in filings made with the Securities and Exchange Commission (the "SEC"). In the future, our directors and executive officers may sell a significant number of shares for a variety of reasons unrelated to the performance of our business. Our stockholders may perceive these sales as a reflection on management's view of the business and result in some stockholders selling their shares of our common stock. These sales could cause the price of our stock to drop.

Certain of our stockholders have the right to engage or invest in the same or similar businesses as us.

L Catterton and GIC Pte. Ltd. ("GIC") each engage in other investments and business activities in addition to their ownership of us. Under our fifth amended and restated certificate of incorporation,

[Table of Contents](#)

L Catterton and GIC each have the right, and have no duty to abstain from exercising such right, to engage or invest in the same or similar businesses as us, do business with any of our customers or vendors, or employ or otherwise engage any of our officers, directors or employees. If L Catterton, GIC or any of their respective officers, directors or employees acquire knowledge of a potential transaction that could be a corporate opportunity, they have no duty, to the fullest extent permitted by law, to offer such corporate opportunity to us, our stockholders or our affiliates.

In the event that any of our directors and officers who is also a director, officer or employee of L Catterton or GIC acquires knowledge of a corporate opportunity or is offered a corporate opportunity, provided that this knowledge was not acquired solely in such person's capacity as our director or officer and such person acts in good faith to the fullest extent permitted by law, then even if L Catterton or GIC pursue or acquire the corporate opportunity or if L Catterton or GIC do not present the corporate opportunity to us, such person is deemed to have fully satisfied such person's fiduciary duties owed to us and is not liable to us.

Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures, or investments.

USE OF PROCEEDS

The selling stockholders will receive all net proceeds from the sale of the shares of our common stock to be sold in this offering. We will not receive any of the proceeds from the sale of our common stock by the selling stockholders, including from any exercise by the underwriters of their option to purchase additional shares. The expenses of the offering, not including the underwriting discount, are estimated at approximately \$0.6 million and are payable by us. See "Underwriting".

DIVIDEND POLICY

We have never declared nor paid any cash dividends on our common stock. We currently intend to retain all available funds and any future earnings for use in the operation of our business and do not expect to pay any dividends on our common stock in the foreseeable future. Any future determination relating to our dividend policy will be made by our board of directors and will depend on a number of factors, including: our actual and projected financial condition, liquidity, and results of operations; our capital levels and needs; tax considerations; any acquisitions or potential acquisitions that we may examine; statutory and regulatory prohibitions and other limitations; the terms of any credit agreements or other borrowing arrangements that restrict the amount of cash dividends that we can pay; general economic conditions; and other factors deemed relevant by our board of directors. We are not obligated to pay dividends on our common stock.

PRINCIPAL AND SELLING STOCKHOLDERS

The following table presents information concerning the beneficial ownership of the shares of our common stock as of the date of this prospectus by (1) each person known by us to beneficially own more than 5% of the outstanding shares of our common stock, (2) each of our directors and named executive officers, (3) all of our directors and executive officers as a group and (4) the other parties who are selling stockholders in this offering. The table also contains information about beneficial ownership, as adjusted, to reflect the sale of common stock in this offering assuming 189,777,769 shares of common stock outstanding as of September 10, 2021.

Beneficial ownership is determined under the rules of the SEC and generally includes any shares over which a person exercises sole or shared voting and/or investment power over securities. The information is not necessarily indicative of beneficial ownership for any other purpose. Except in cases where community property laws apply or as indicated in the footnotes to this table, we believe that each stockholder identified in the table possesses sole voting and investment power over all shares of common stock shown as beneficially owned by the stockholder. Shares of restricted stock units and stock options that are exercisable or exercisable within 60 days of the date of this prospectus are considered outstanding and beneficially owned by the person holding the restricted stock units or stock options for the purpose of computing the percentage ownership of that person but are not treated as outstanding for the purpose of computing the percentage ownership of any other person.

DESCRIPTION OF CAPITAL STOCK

General

The following description of our capital stock and certain provisions of our fifth amended and restated certificate of incorporation and amended and restated bylaws are summaries and are qualified by reference to the fifth amended and restated certificate of incorporation and the amended and restated bylaws, copies of which are incorporated by reference as exhibits to the registration statement of which this prospectus forms a part.

Our fifth amended and restated certificate of incorporation authorizes shares of common stock and undesignated preferred stock, the rights, preferences and privileges of which may be designated from time to time by our board of directors.

Our authorized capital stock consists of 1,001,000,000 shares, all with a par value of \$0.001 per share, of which:

- 1 billion shares are designated as common stock; and
- 1 million shares are designated as preferred stock.

As of September 10, 2021, we had outstanding:

- 189,777,769 shares of common stock; and
- no shares of preferred stock.

As of September 10, 2021, there were 11 stockholders of record, although there is a much larger number of beneficial holders. The actual number of stockholders is greater than the number of record holders stated above, and includes stockholders who are beneficial owners, but whose shares are held in “street name” by brokers and other nominees. Our board of directors is authorized, without stockholder approval except as required by the listing standards of Nasdaq, to issue additional shares of our capital stock.

Common Stock

Voting Rights

The common stock is entitled to one vote per share on any matter that is submitted to a vote of our stockholders. Holders of shares of our common stock will vote together as a single class on all matters (including the election of directors) submitted to a vote of stockholders.

Our fifth amended and restated certificate of incorporation does not provide for cumulative voting for the election of directors.

Economic Rights

Except as otherwise expressly provided in our fifth amended and restated certificate of incorporation or required by applicable law, all shares of our common stock have the same rights and privileges and rank equally, share ratably and be identical in all respects for all matters, including those described below.

Dividends and Distributions. Subject to preferences that may apply to any shares of preferred stock outstanding at the time, the holders of our common stock are entitled to share equally, on a per

[Table of Contents](#)

share basis, in such dividends and other distributions of cash, property or shares of stock of the Company as may be declared by the board of directors from time to time with respect to the common stock out of assets or funds of the Company legally available therefor.

Liquidation Rights. On our liquidation, dissolution or winding-up, the holders of our common stock are entitled to share ratably in all assets remaining after the payment of the Company of whatever kind available for distribution to the holders of common stock.

No Preemptive or Similar Rights

Our common stock is not entitled to preemptive rights, and are not subject to conversion, redemption or sinking fund provisions.

Preferred Stock

Under our fifth amended and restated certificate of incorporation, our board of directors may, without further action by our stockholders, fix the rights, preferences, privileges and restrictions of up to an aggregate of 1 million shares of preferred stock in one or more series and authorize their issuance. These rights, preferences and privileges could include dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences and the number of shares constituting any series or the designation of such series, any or all of which may be greater than the rights of our common stock. Any issuance of our preferred stock could adversely affect the voting power of holders of our common stock, and the likelihood that such holders would receive dividend payments and payments on liquidation. In addition, the issuance of preferred stock could have the effect of delaying, deferring or preventing a change of control or other corporate action. No shares of preferred stock are outstanding. We have no present plan to issue any shares of preferred stock.

Registration Rights

In connection with the IPO, we entered into an agreement that provides that certain holders of our capital stock have certain registration rights and are subject to certain transfer restrictions. See the section titled “Certain Relationships and Related Party Transactions—Registration Rights” in our Annual Report on Form 10-K for the year ended October 3, 2020, which is incorporated by reference herein.

Anti-Takeover Provisions

Stockholder Action; Special Meeting of Stockholders

Our fifth amended and restated certificate of incorporation and amended and restated bylaws provide that, from and after the Trigger Event, our stockholders may not take action by written consent, but may only take action at annual or special meetings of our stockholders, provided, however, that any action required or permitted to be taken by the holders of preferred stock may be taken without a meeting, without prior notice and without a vote, to the extent expressly so provided by the applicable certificate of designation relating to such series of preferred stock. Our fifth amended and restated certificate of incorporation and our amended and restated bylaws also provide that, from and after the Trigger Event, except as otherwise required by law, special meetings of our stockholders can only be called by our chairman of the board or our board of directors.

Authorized but Unissued Shares

The authorized but unissued shares of our common stock and preferred stock are available for future issuance without stockholder approval, subject to any limitations imposed by the listing

Table of Contents

standards of Nasdaq. These additional shares may be used for a variety of corporate finance transactions, acquisitions, and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could make more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger, or otherwise.

Classified Board

Our fifth amended and restated certificate of incorporation provides that our board of directors will be classified into three classes of directors, each of which will hold office for staggered three-year terms. In addition, from and after the Trigger Event, directors may only be removed from the board of directors for cause and only by the affirmative vote of the holders of at least 66 $\frac{2}{3}$ % in voting power of all the then-outstanding shares of stock of the Company entitled to vote thereon, voting together as a single class. The existence of a classified board could delay a potential acquirer from obtaining majority control of our board of directors, and the prospect of that delay might deter a potential acquirer. See the section titled "Directors, Executive Officers and Corporate Governance—Composition of the Board of Directors and Election of Directors" in our Annual Report on Form 10-K for the year ended October 3, 2020, which is incorporated by reference herein.

Board of Directors Vacancies

Our fifth amended and restated certificate of incorporation and amended and restated bylaws authorize only our board of directors to fill vacant directorships, including newly created seats. In addition, the number of directors constituting our board of directors is permitted to be set only by a resolution adopted by a majority vote of our entire board of directors. These provisions would prevent a stockholder from increasing the size of our board of directors and then gaining control of our board of directors by filling the resulting vacancies with its own nominees. This will make it more difficult to change the composition of our board of directors and will promote continuity of management.

Advance Notice Requirements for Stockholder Proposals and Director Nominations

Our amended and restated bylaws provide advance notice procedures for stockholders seeking to bring business before our annual meeting of stockholders or to nominate candidates for election as directors at our annual meeting of stockholders. Our amended and restated bylaws also specify certain requirements regarding the form and content of a stockholder's notice. These provisions might preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders if the proper procedures are not followed. We expect that these provisions may also discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of our company.

No Cumulative Voting

The DGCL provides that stockholders are not entitled to cumulate votes in the election of directors unless a corporation's certificate of incorporation provides otherwise. Our fifth amended and restated certificate of incorporation does not provide for cumulative voting.

Amendment of Charter and Bylaws Provisions

From and after the Trigger Event, amendments to certain provisions of our fifth amended and restated certificate of incorporation regarding the amendment of our fifth amended and restated

[Table of Contents](#)

certificate of incorporation, the composition and authority of our board of directors, the election and removal of directors, limitations of director liability, stockholder meetings, corporate opportunities, choice of forum and the interpretation of our fifth amended and restated certificate of incorporation will require the affirmative vote of the holders of at least 66²/₃% in voting power of all the then-outstanding shares of stock of the Company entitled to vote thereon, voting together as a single class. Our amended and restated bylaws authorize the board of directors to amend our bylaws without the assent or vote of shareholders, provided that, from and after the Trigger Event, stockholders may amend the bylaws with the affirmative vote of the holders of at least 66²/₃% in voting power of all the then-outstanding shares of stock of the Company entitled to vote thereon, voting together as a single class.

Choice of Forum

Our fifth amended and restated certificate of incorporation provides that the Court of Chancery of the State of Delaware will be, to the fullest extent permitted by law, the exclusive forum for the following types of actions or proceedings under Delaware statutory or common law: (i) any derivative action or proceeding brought on our behalf; (ii) any action asserting a breach of fiduciary duty owed by any of our directors, officers, other employees or stockholders to us or our stockholders, creditors or other constituents, or a claim of aiding and abetting any such breach of fiduciary duty; (iii) any action asserting a claim against us or our directors or officers arising under the DGCL or our fifth amended and restated certificate of incorporation or the bylaws or as to which the DGCL confers jurisdiction on the Court of Chancery of the State of Delaware; (iv) any action to interpret, apply, enforce or determine the validity of our fifth amended and restated certificate of incorporation or our amended and restated bylaws; (v) any action asserting an "internal corporate claim" as that term is defined in Section 115 of the DGCL; or (vi) any action asserting a claim against us or our directors or officers that is governed by the internal affairs doctrine; *provided, however*, that, in the event that the Court of Chancery of the State of Delaware lacks subject matter jurisdiction over any such action or proceeding, any other state court of the State of Delaware, or if no state court of the State of Delaware has subject matter jurisdiction, the federal district court for the District of Delaware, unless we consent in writing to the selection of an alternative forum. Unless we consent in writing to the selection of an alternative forum, the federal district court for the District of Delaware shall, to the fullest extent permitted by law, be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act against us or our directors or officers. Notwithstanding the foregoing, the provisions of this paragraph will not apply to suits brought to enforce any liability or duty created by the Exchange Act. Any person or entity purchasing or otherwise acquiring any interest in any shares of our capital stock shall be deemed to have notice of and to have consented to the forum provisions in the fifth amended and restated certificate of incorporation. If any action the subject matter of which is within the scope the forum provisions is filed in a court other than a court located within the State of Delaware (a "foreign action") in the name of any stockholder, such stockholder shall be deemed to have consented to: (x) the personal jurisdiction of the state and federal courts located within the State of Delaware in connection with any action brought in any such court to enforce the forum provisions (an "enforcement action"), and (y) having service of process made upon such stockholder in any such enforcement action by service upon such stockholder's counsel in the foreign action as agent for such stockholder.

This choice of forum provision in our fifth amended and restated certificate of incorporation may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, or other employees, which may discourage lawsuits with respect to such claims. There is uncertainty as to whether a court would enforce such provisions, and the enforceability of similar choice of forum provisions in other companies' charter documents has been challenged in legal proceedings. It is possible that a court could find these types of provisions to be inapplicable or unenforceable, and if a court were to find the choice of forum provision contained in the fifth amended and restated certificate of incorporation to be inapplicable or unenforceable in an action,

[Table of Contents](#)

we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, results of operations, and financial condition.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Computershare Trust Company, N.A.

Exchange

Our common stock is listed on Nasdaq under the symbol "LESL."

SHARES ELIGIBLE FOR FUTURE SALE

As of September 10, 2021, we had 189,777,769 outstanding shares of common stock. Of the outstanding shares, 110,958,772 shares are freely tradable without restriction or further registration under the Securities Act. The remaining outstanding shares of our common stock are restricted securities, as defined in Rule 144. Certain of our stockholders may be considered affiliates.

We cannot predict what effect, if any, sales of shares of our common stock from time to time or the availability of shares of our common stock for future sale may have on the market price of our common stock. Sales of substantial amounts of common stock, including in this offering, or the perception that such sales could occur, could adversely affect prevailing market prices for our common stock and could impair our future ability to raise capital through an offering of equity securities or otherwise. See the section titled “Risk Factors” elsewhere in this prospectus and in the information incorporated by reference herein.

Lock-up Agreements

In connection with this offering, we, our executive officers, directors and the selling stockholders have agreed that, subject to certain exceptions, until the 60th day after the date of the final prospectus for this offering, we and they will not, without the prior written consent of Morgan Stanley & Co. LLC, Goldman Sachs & Co. LLC and BofA Securities, Inc., dispose of or hedge any shares or any securities convertible into or exchangeable for shares of our capital stock. Morgan Stanley & Co. LLC, Goldman Sachs & Co. LLC and BofA Securities, Inc. may, in their sole discretion, release any of the securities subject to these lock-up agreements at any time. See “Underwriting—Lock-Up Agreements.” In addition, certain of our stockholders are subject to additional lock-up agreements set forth in the Registration Rights and Lock-up Agreement as described in “Certain Relationships and Related Party Transactions—Registration Rights—Additional Lock-up” in our Annual Report on Form 10-K for the year ended October 3, 2020, which is incorporated by reference herein. As a result of these contractual restrictions, shares of our common stock subject to lock-up agreements are not eligible for sale until these agreements expire or the restrictions are waived by the representatives of the underwriters or the Company and L Catterton, as applicable.

Rule 701

In general, under Rule 701, any of an issuer’s employees, directors, officers, consultants, or advisors who purchases shares from the issuer in connection with a compensatory stock or option plan or other written agreement before the effective date of a registration statement under the Securities Act is entitled to sell such shares 90 days after such effective date in reliance on Rule 144. An affiliate of the issuer can resell shares in reliance on Rule 144 without having to comply with the holding period requirement, and non-affiliates of the issuer can resell shares in reliance on Rule 144 without having to comply with the current public information and holding period requirements.

The SEC has indicated that Rule 701 will apply to typical options granted by an issuer before it becomes subject to the reporting requirements of the Exchange Act, along with the shares acquired upon exercise of such options, including exercises after an issuer becomes subject to the reporting requirements of the Exchange Act.

Registration Statement on Form S-8

We have filed with the SEC a registration statement on Form S-8 under the Securities Act covering the shares of common stock reserved for issuance under our 2020 Omnibus Incentive Plan.

[Table of Contents](#)

That registration statement was effective upon filing. Upon effectiveness, the shares of common stock covered by that registration statement were eligible for sale in the public market, subject to any vesting restrictions and limitations on exercise under the 2020 Omnibus Incentive Plan, the lock-up agreements and Rule 144 restrictions described below.

Rule 144

All shares of our common stock held by our “affiliates,” as that term is defined in Rule 144 under the Securities Act, generally may be sold in the public market only in compliance with Rule 144. Rule 144 defines an affiliate as any person who directly or indirectly controls, or is controlled by, or is under common control with, the issuer, which generally includes our directors, executive officers, and certain other related persons.

Under Rule 144 under the Securities Act, a person (or persons whose shares are aggregated) who is deemed to be an “affiliate” of ours would be entitled to sell within any three-month period a number of shares of our common stock that does not exceed the greater of (i) 1% of the then outstanding shares of our capital stock, or (ii) an amount equal to the average weekly trading volume of our common stock on Nasdaq during the four calendar weeks preceding such sale. Sales under Rule 144 are also subject to a six-month holding period and requirements relating to manner of sale, notice and the availability of current public information about us.

Rule 144 also provides that a person who is not deemed to have been an affiliate of ours at any time during the three months preceding a sale, and who has for at least six months beneficially owned shares of our common stock that are restricted securities, will be entitled to freely sell such shares of our common stock without regard to the limitations described above, subject to our compliance with Exchange Act reporting obligations for at least 90 days prior to the sale, and provided that such sales comply with the current public information requirements of Rule 144. A person who is not deemed to have been an affiliate of ours at any time during the three months preceding a sale, and who has beneficially owned for at least one year shares of our common stock that are restricted securities, will be entitled to freely sell such shares of our common stock under Rule 144 without regard to the current public information requirements of Rule 144, subject to our compliance with Exchange Act reporting obligations for at least 90 days prior to the sale.

Registration Rights

See the section titled “Certain Relationships and Related Party Transactions—Registration Rights” in our Annual Report on Form 10-K for the year ended October 3, 2020, which is incorporated by reference herein.

CERTAIN MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of certain United States federal income tax consequences relevant to non-United States holders' (as defined below) purchase, ownership, and disposition of our common stock issued pursuant to this offering, but does not purport to be a complete analysis of all the potential tax considerations relating thereto. This summary is based upon the provisions of the Code, Treasury regulations promulgated or proposed thereunder, judicial decisions, and published rulings and administrative pronouncements of the United States Internal Revenue Service (the "IRS"), in each case in effect as of the date hereof. These authorities may be changed, possibly with retroactive effect, so as to result in United States federal income tax consequences different from those set forth below. We have not sought, and will not seek, any rulings from the IRS regarding the matters discussed below, and there can be no assurance that the IRS will not take a position contrary to those discussed below or that any position taken by the IRS will not be sustained.

This summary is limited to non-United States holders who purchase our common stock pursuant to this offering and who hold shares of our common stock as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment purposes). This summary does not address the tax consequences arising under the laws of any United States state or local or non-United States jurisdiction or under United States federal gift and estate tax laws or the effect, if any, of the alternative minimum tax, the base erosion and anti-abuse tax, the Medicare contribution tax imposed on net investment income, or the requirements of Section 451 of the Code with respect to conforming the timing of income accruals to financial statements. In addition, this discussion does not address tax considerations applicable to a non-United States holder's particular circumstances or to a non-United States holder that may be subject to special tax rules, including, without limitation:

- banks, insurance companies, or other financial institutions;
- pass-through entities or investors therein;
- tax-exempt organizations or governmental organizations;
- controlled foreign corporations, passive foreign investment companies, and corporations that accumulate earnings to avoid United States federal income tax;
- brokers or dealers in securities or currencies;
- traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;
- United States expatriates and former citizens or former long-term residents of the United States;
- persons who hold our common stock as a position in a hedging transaction, "straddle," "conversion transaction," or other risk reduction transaction;
- persons who hold or receive our common stock pursuant to the exercise of any employee stock option or otherwise as compensation;
- tax-qualified retirement plans;
- "qualified foreign pension funds" (within the meaning of Section 897(l)(2) of the Code) and entities all of the interest which are held by qualified foreign pension funds;
- "qualified shareholders" (within the meaning of Section 897(k)(3) of the Code) or investors therein;
- persons deemed to sell our common stock under the constructive sale provisions of the Code; and
- persons who actually or constructively own more than 5% of our common stock.

[Table of Contents](#)

In addition, if a partnership (including an entity or arrangement classified as a partnership for United States federal income tax purposes) holds our common stock, the tax treatment of a partner generally will depend on the status of the partner and upon the activities of the partner and the partnership. Accordingly, partnerships that hold our common stock, and partners in such partnerships, are urged to consult their tax advisors.

YOU ARE URGED TO CONSULT YOUR TAX ADVISOR WITH RESPECT TO THE APPLICATION OF THE UNITED STATES FEDERAL INCOME TAX LAWS TO YOUR PARTICULAR SITUATION, AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP, AND DISPOSITION OF OUR COMMON STOCK ARISING UNDER THE UNITED STATES FEDERAL ESTATE OR GIFT TAX RULES, UNITED STATES ALTERNATIVE MINIMUM TAX RULES, OR UNDER THE LAWS OF ANY NON-UNITED STATES, STATE, OR LOCAL TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Non-United States Holder Defined

For purposes of this discussion, you are a “non-United States holder” if you are a beneficial owner of our common stock and you are neither a “United States person” nor an entity or arrangement classified as a partnership for United States federal income tax purposes. A United States person is any person that, for United States federal income tax purposes, is or is treated as:

- an individual who is a citizen or resident of the United States;
- a corporation or other entity taxable as a corporation created or organized in the United States or under the laws of the United States, any state thereof, or the District of Columbia;
- an estate whose income is subject to United States federal income tax regardless of its source; or
- a trust (x) whose administration is subject to the primary supervision of a United States court and which has one or more “United States person” (as defined in the Code) who have the authority to control all substantial decisions of the trust or (y) which has made an election under applicable Treasury regulations to be treated as a United States person for United States federal income tax purposes.

Distributions

As described under “Dividend Policy” in this prospectus, we do not currently expect to make any distributions for the foreseeable future. However, subject to the discussions below regarding FATCA and backup withholding, if we do make distributions of cash or property on our common stock, other than certain pro rata distributions of common stock, those distributions generally will constitute dividends for United States federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under United States federal income tax principles. To the extent distributions exceed both our current and our accumulated earnings and profits, they will first constitute a return of capital and will reduce your adjusted tax basis in our common stock, but not below zero, and then any excess will be treated as capital gain from the sale of our common stock, subject to the tax treatment described below in “—Gain on Sale or Other Taxable Disposition of Common Stock.”

Any dividend paid to you generally will be subject to United States federal withholding tax at a rate of 30% of the gross amount of the dividend, or such lower rate as may be specified by an applicable income tax treaty, except to the extent that the dividends are effectively connected with your conduct of a trade or business within the United States, as described below. In order to claim any treaty benefits to which you are entitled, you must provide us or our paying agent with a properly

[Table of Contents](#)

completed IRS Form W-8BEN or W-8BEN-E (or other appropriate form) certifying your qualification for the reduced treaty rate. If you do not timely furnish the required documentation, but are otherwise eligible for a reduced rate of United States federal withholding tax pursuant to an income tax treaty, you may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. If you hold our common stock through a financial institution or other agent acting on your behalf, you will be required to provide appropriate documentation to the agent, who then will be required to provide certification to us or our paying agent, either directly or through other intermediaries.

We may withhold up to 30% of the gross amount of the entire distribution even if greater than the amount constituting a dividend, as described above, to the extent provided for in the Treasury Regulations. If tax is withheld on the amount of a distribution in excess of the amount constituting a dividend, then you may be entitled to a refund of any such excess amounts if a claim for refund is timely filed with the IRS.

Dividends received by you that are effectively connected with your conduct of a trade or business within the United States (and, if an applicable income tax treaty requires, attributable to a permanent establishment or fixed base maintained by you in the United States) are exempt from the United States federal withholding tax described above. In order to claim this exemption, you must provide us or our paying agent with an IRS Form W-8ECI (or appropriate successor form) properly certifying that the dividends are effectively connected with your conduct of a trade or business within the United States. Such effectively connected dividends, although not subject to United States federal withholding tax, are generally taxed at the same graduated United States federal income tax rates applicable to United States persons (unless an applicable income tax treaty provides otherwise), net of certain applicable deductions. In addition, if you are a corporate non-United States holder, you may also be subject to a branch profits tax at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty) on your effectively connected earnings and profits for the taxable year that are attributable to such dividends, as adjusted for certain items.

Gain on Sale or Other Taxable Disposition of Common Stock

Subject to the discussions below regarding FATCA and backup withholding, you generally will not be subject to United States federal income tax (including withholding thereof) on any gain realized upon the sale or other taxable disposition of our common stock unless:

- the gain is effectively connected with your conduct of a United States trade or business (and, if an applicable income tax treaty requires, the gain is attributable to a permanent establishment or fixed base maintained by you in the United States);
- you are an individual who is present in the United States for a period or periods aggregating 183 days or more during the taxable year in which the sale or disposition occurs and certain other conditions are met; or
- our common stock constitutes a United States real property interest by reason of our status as a “United States real property holding corporation,” (a “USRPHC”), for United States federal income tax purposes, at any time during the shorter of the five-year period ending on the date of the sale or other taxable disposition of, or your holding period for, our common stock.

If you are a non-United States holder described in the first bullet above, you generally will be subject to United States federal income tax on the gain derived from the sale or other taxable disposition (net of certain deductions or credits) under regular graduated United States federal income tax rates generally applicable to United States persons (unless an applicable income tax treaty provides otherwise), and corporate non-United States holders described in the first bullet above also may be subject to the “branch profits tax” described above in the section titled “—Distributions.”

[Table of Contents](#)

If you are an individual non-United States holder described in the second bullet above, you will be subject to United States federal income tax at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty) on the gain derived from the sale or other taxable disposition, which may be offset by certain United States source capital losses recognized in the same taxable year (even though you are not considered a resident of the United States), provided that you have timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet above, we believe that we are not currently and (based upon our projections as to our business) will not become a USRPHC.

Backup Withholding and Information Reporting

Payments of dividends on our common stock will not be subject to backup withholding, provided you either certify your non-United States status, such as by furnishing a valid IRS Form W-8BEN, W-8BEN-E, or W-8ECI (or other applicable form), or otherwise establish an exemption. However, information returns are required to be filed with the IRS in connection with any distributions on our common stock paid to you, regardless of whether such distributions constitute dividends or whether any tax was actually withheld. In addition, proceeds of the sale or other taxable disposition of our common stock within the United States or conducted through certain United States-related brokers generally will not be subject to backup withholding or information reporting, if the applicable withholding agent receives the certification described above or you otherwise establish an exemption. Proceeds of a disposition of our common stock conducted through a non-United States office of a non-United States broker generally will not be subject to backup withholding or information reporting.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to tax authorities in your country of residence, establishment, or organization.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed credit against a non-United States holder's United States federal income tax liability, and may entitle the non-United States holder to a refund, provided that the required information is furnished to the IRS in a timely manner.

Additional Withholding Tax on Payments Made to Foreign Accounts

Under legislation and related Treasury guidance (commonly referred to as "FATCA"), a 30% United States federal withholding tax will generally apply to any payments of dividends in respect of and, subject to the regulatory relief described below, gross proceeds from the sale or other disposition of, our common stock to (i) a "foreign financial institution" (as specifically defined in the Code and whether such foreign financial institution is the beneficial owner or an intermediary) which does not provide sufficient documentation, typically on IRS Form W-8BEN-E, evidencing either (x) an exemption from FATCA, or (y) its compliance (or deemed compliance) with FATCA (which may alternatively be in the form of compliance with an intergovernmental agreement with the United States) in a manner which avoids withholding, or (ii) a "non-financial foreign entity" (as specifically defined in the Code and whether such non-financial foreign entity is the beneficial owner or an intermediary) which does not provide sufficient documentation, typically on IRS Form W-8BEN-E, evidencing either (x) an exemption from FATCA, or (y) adequate information regarding certain substantial United States beneficial owners of such entity (if any). If a dividend payment is both subject to withholding under FATCA and subject to the withholding tax discussed above under "—Distributions," the withholding under FATCA may be credited against, and therefore reduce, such other withholding tax. Under proposed Treasury regulations that may be relied upon pending finalization, the withholding tax on gross proceeds would be eliminated and, consequently, FATCA withholding on gross proceeds is not currently expected to

apply. You should consult your tax advisors regarding these rules and whether they may be relevant to your ownership and disposition of our common stock.

THE PRECEDING DISCUSSION OF UNITED STATES FEDERAL TAX CONSEQUENCES IS FOR GENERAL INFORMATION ONLY. THIS DISCUSSION IS NOT TAX ADVICE. EACH PROSPECTIVE INVESTOR IS URGED TO CONSULT ITS TAX ADVISOR REGARDING THE PARTICULAR UNITED STATES FEDERAL, STATE, AND LOCAL AND NON-UNITED STATES TAX CONSEQUENCES OF PURCHASING, HOLDING, AND DISPOSING OF OUR COMMON STOCK, INCLUDING THE CONSEQUENCES OF ANY PROPOSED CHANGE IN APPLICABLE LAWS.

We and the selling stockholders have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

Lock-Up Agreements with Underwriters

We have agreed with the underwriters from the date of this prospectus through the date that is 60 days after the date of this prospectus (the “Lock-Up Period”) not to (i) offer, sell, contract to sell, pledge, grant any option to purchase, make any short sale or otherwise transfer or dispose of, directly or indirectly, or file with or confidentially submit to the SEC a registration statement under the Securities Act relating to, any securities of the Company that are substantially similar to shares of our common stock, including but not limited to any options or warrants to purchase shares of our stock or any securities that are convertible into or exchangeable for, or that represent the right to receive, stock or any such substantially similar securities, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing or (ii) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of our stock or any such other securities, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of stock or such other securities, in cash or otherwise, other than (A) the shares of our common stock to be sold in this offering, (B) any shares of stock issued by the us upon the conversion or exchange of securities convertible into or exchangeable for stock, which securities are outstanding on the date hereof, and (C) the grant of equity incentives pursuant to plans in effect as of the consummation of this offering, unless we obtain the prior written consent of the representatives of the underwriters.

Additionally, our executive officers, directors and the selling stockholders in this offering have agreed that, without the prior written consent of Morgan Stanley & Co. LLC, Goldman Sachs & Co. LLC and BofA Securities, Inc., the representatives of the underwriters, they will not, during the 60-day period after the date of this prospectus, (i) offer, sell, contract to sell, pledge, grant any option to purchase, lend or otherwise dispose of any shares of our common stock, or any options or warrants to purchase any shares of our common stock, or any securities convertible into, exchangeable for or that represent the right to receive shares of our common stock, (ii) engage in any hedging or other transaction or arrangement or (iii) otherwise publicly announce any intention to engage in or cause any action or activity described in clause (i) or (ii) above. These restrictions are subject to certain exceptions for transfers, including customary exceptions related to open market transactions, in connection with gifts, charitable contributions or transfers to immediate family members or to any trust, beneficiary or estate of a beneficiary, in connection with transfers to partnerships, limited liability companies or other entities, transfers by operation of law, the establishment of Rule 10b5-1 plans, the grant or issuance by the company pursuant to any employee benefit plans, in connection with the exercise of stock options or other instruments, including “cashless” or “net” exercises or transfers or forfeitures to satisfy tax withholding obligations, pursuant to any third-party tender offer, merger or similar transaction, a repurchase by the company in connection with a termination of employment, or in the case of a corporation, partnership, limited liability company or other business entity, (A) transfers to limited partners, general partners, members, or holders of similar interests or to any investment holding company controlled or managed by a party subject to these restriction or (B) transfers to affiliates or other entities controlled or managed by a party subject to these restrictions or any of its affiliates, and transfers with the prior written consent of the representatives on behalf of the underwriters. In the event that, during the 60-day period after the date of this prospectus, the representatives of the underwriters release or waive, in full or in part, any prohibition set forth in the lock-up agreement for any person or entity that beneficially owns 2% of the total outstanding shares of common stock, subject to certain exceptions (a “Triggering Release”), at the time of such Triggering Release, L Catterton and GIC and their affiliates shall be entitled to concurrent releases of common stock on a pro rata basis on the same terms.

Our common stock is listed on Nasdaq under the symbol “LESL.”

Price Stabilization and Short Positions

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions, and

Table of Contents

purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A "covered short position" is a short position that is not greater than the amount of additional shares for which the underwriters' option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to cover the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option described above. "Naked" short sales are any short sales that create a short position greater than the amount of additional shares for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on Nasdaq, in the over-the-counter market or otherwise.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage, and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to the issuer and to persons and entities with relationships with the issuer, for which they received or will receive customary fees and expenses.

Other Relationships

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors, and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps, and other financial instruments for their own account and for the accounts of their consumers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the issuer (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with the issuer. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities, or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

Table of Contents

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.
